LAW INTELLIGENCE.

SUPREME COURT-GENERAL TRUE-Sept. 25.—Before Justices Sutherland, Bonner, and Allen. THE RECORD COMMISSION - PEREMPTORY MANDAMUS ISSUED TO THE SUPERVISORS. In the matter of the appeal taken by the Supervisors

from the decision of Judge Sutherland at Special Term, granting a peremptory mandamus to compel the Supervisors to put in the tax-list the sum of \$80,000 authorized by act of the last Legislature, to be raised on account of the Record Commission, but not to be paid until a judicial determination of the question of their right to said amount, the decision of the General Term was rendered this morning, affirming the decision at Special Term, without costs.

There was no written opinion, but while the conclusion was unanimous, Judge Bonney expressed his dissent from some of the views of Judge Sutherland asexpressed in the Special Term opinion, in that, first, he did not think that there had been a sufficient demand by plaintiffs, and refusal to comply of the Supervisors to justify the issuing of a peremptory mandamus: and, second, he did not think the Supervisors should be compelled to raise any of the \$80,000 until it was first judicially determined exactly what amount was due, and to which the claimants were justly entitled. In the other several views in the constitution of the law he concurred.

Abram R. Lawrence, jr., on behalf of the Supervisors, immediately applied for a stay of proceedings, in view of an appeal to the Court of Appeals, but the Court refused; Judge Sutherland expressing the view that as the peremptory mandamus would not compel the immediate issue of the tax-books, only, that when issued they should contain provision for the disputed \$80,000; hence, if the Supervisors wanted to appeal, they could continue to hold back the books a sufficient length of time to enable them to appeal in regular course.

Judge Allen suggested that the question was one of responsibility merely; if the Supervisors chose to hold back the tax-books they might do so, but they had already been kept back two months, and the Court declined to take the responsibility of any further delay by DECISIONS.

QUESTION ON THE DEEDS OF CORPORATION LOTS SOLD.
Miller & Costs agt. Robert T. Haws, Controller, &c.
The plaintiffs applied for an alternative mandamus requiring the defendant to give up the deeds of property in Fourth and Fifth avenues, between 15th and 76th streets, sold by the city to plaintiffs some two years since for \$7,000. The terms of sale were 10 per cent down and the balance of 15 per cent in 20 days, and bond and mortgage for five years for the residue. The 10 per cent was paid, and time asked at the end of 30 days for the balance of the 15 per cent. The Controller granted time, saying that the 10 per cent was registered, and the bond and mortgage prepared. Plaintiffs subsequently called and said they would pay whenever the Controller wanted in this way some two years. Plaintiffs paid the taxes from the time of sale in 1822, until in 1823 they desired to pay the balance of the 15 per cent, when no record of the 10 per cent paid could be found, and the Sunking Fund Commissioners refused to give up the deeds, insisting that the terms of sale had not been compiled with, even if the 10 per cent and been paid, inasmuch as the balance of the 15 per cent required to be paid in 30 days till stood unsettled. Plaintiff held that the payment of 10 per cent was sufficient to bind the city, and that on the cefer of the balance of the 15 per cent required to be paid in 30 days till stood unsettled. UNITED STATES DISTRICT COURT-SEPT. 25.—Before Judge BRITS.
THE POST-OFFICE DEFALCATION—A COMMISSION TO

Judge BRITS.

THE POST-OFFICE DEFALCATION—A COMMISSION TO EXAMINE ISAAC V. FOWLER.

George Law and Gustavos A. Conover agt. The United States. This case came up this morning, pursuant to adjournment, on motion for a commission to take the testimony of Isaac V. Fowler. Mr. H. Robinson presented the affidavit of George Law, which set forth that witnesses had been ordered by the Court to be tried by a Jury, and that he had been advised, and believed, that the testimony of Isaac V. Fowler was material and necessary for the plaintiffs in this action, and that without the benefit of his testimony the plaintiffs' counsel could not safely proceed to the trial of said issues. The defendant added that there was no hope or expectation that said Fowler would return to the United States.

The United States District-Attorney read the affidavit of J. Buchanan Henry, Assistant District-Attorney of the United States, who stated that on the 10th of of the United States, who stated that on the 10th of June last Isaac V. Fowler was indicted for the crime of embezziement, for appropriating to his own use the sum of \$155,000, collected and received by him as deputy pos master—an offense determined by law to be

deputy pos master—an ortenee decriment by an affelony.

That instead of meeting said charge, the said Fowler, after concealing himself for a time, fled from the United States to Cuba or some other place, to avoid arrest by the Marshal; and the defendant says that Fowler has thus confessed himself guilty of felony, and that if he be a competent witness his testimony, if false, would not expose him to the legal consequences of perjury, therefore the trial ought not to be delayed. And further, that if the only object for which Fowler is to be excused is to prove a statement could be to prove him guilty of a gross fraud upon the Government in obtaining his commission and the edy the power of collections. ing his commission and thereby the power of collecting the moneys which he had afterward feloniously

appropriated to his own use.

This was sworn to in the usual way.

The Hon. J. J. Roossvelt, on opposing the motion, said he did not see how the evidence of any man like Fowler could be desirable in any action; a man who ha dviol sted his each of office times out of number. He had evidently put his hand into the public purse on the first week after his appointment. In addition to the civi suit instituted against aim by the United States, he had been indicted for the felony, and in that case it had been indicated for the felony, and in that case is must be noticed that he had not put an appearance or interposed a plea of not guilty but had let judgment, as it may be said go against him by default; directly he hears of the charge he fees the country.

He, the District-Attorney, therefore submitted that Fowler was as much disqualified on the question of his credibility as if he had been convicted of felony; and if

not, he had been guilty of a gross fraud in order that his sureties may get rid of the hability, as in no portion of the papers had there been any allowance to Oliver Charlick Mr. Robinson replied, and the Judge said that it was

a mere ordinary application to the discretion of the Court, and that he did not see any reason for refusing the commission, but he would limit the stay of proceedings to the 27th of October. The Grand Jury came into Court with true bills of

Indictment in the following cases:
The United States and Joseph Saits and Retti Ylari, for passing counterfeit coin. The prisoners pleaded not guilty. The United States age Edward Cox, for opening and emberding a letter, which had been in the Post-Office. Pleaded not saits. gulity.
The United States sgt. John Dala, for diminishing, falsifying, scaling, and lightening coin. Pleaded not guilty.
The United States agt. John Merriman, for an assault with a dangerous weapon (wire a sheath anife), on the person of Frank Peterson. Pleaded not guilty.

The United States agt. John Dala, for passing counterfeit coin.
Pleaded not guilty.
The United States agt. Charles Osbora and Frankin Engstrom, for an assault with a dangerous weepon on John Davis, mate of the brig Elainore.

SUPERIOR COURT-SPECIAL TERM-Sept. 25.

DIVORCE CASE.

Adelia A. Adams agt. Lyman Adams.

Bosworth, J.—The adultery alleged in the complaint is stated upon information and belief only. The defendant deales it, and so does the person with whom it is alleged to have been committed. Under such circumstances the plaintiff should prome the affidavit of persons who knew the facts and gave hes the information. (Ognod agt. Ognod, 2 Paige. 624) The defendant has regularly paid the plaintiff a weekly cum until withis a very recent period, and if his affidavit be true, he offered her weekly the same means of support until she refused it. If her affidavit be true, he should not be obliged to provide for the child Adelia. Instead, of directing a reference new, I think the motion should be denied, and the plaintiff left to renew it, and he required to show enough to establish, when not controverted, a clear prima facle case. The motion is denied, but leave is given to renew it.

Charles S. Spencer for plaintiff, Mr. Comstock for defendant. he S. Spencer for plaintiff; Mr. Comstock for defendant.

The Stock Exchange has been very much excited throughout the day, and the buying vigorous and earnest at both sessions of the Board. The Commission Houses appeared to be full of orders, and the shorts evidently alarmed by the rapidly gathering strength of the market were competitors for the purchases. This made a lively time, and caused a quick advance in prominent stocks. The movements in New-York Central, Erie, Hudson River, and Harlem were especially strong, and important advances were established in each. At the first Board Erie went up to 39] at the start, and the rush of buyers was sufficient to carry the quotation to 404 before the call closed. Hudson River was taken eagerly as the lots were offered until the sales of cash stock were at 65, when the demand appeared to be for the time supplied. New-York Central with large sales went up to 901 and was in demand at the close. Harlem Old, with sales of about 6,500 shares, advanced to 201 and the Preferred to 51. The Western shares were also very active and generally about I per cent higher than at the close of yesterday but were not quite so bucyant as our local Railways Illinois Central was one of the strongest, and shows an advance of 1 P cent over closing prices of yesterday. Galena and Rock Island, although hammered a little as the most vulnerable stocks on the Western list, were taken up on the tide and were strong at the higher points established. Toledo advanced to 481, and was sterdy through the call. The Michigan roads, although better, were not particularly active. The bond market was somewhat irregular, but upon the whole rather less active—the share list absorbing so much at ention. The morning session lasted until after I o'clock, and the transactions embrace an aggregate equal to any day of the year in the number of shares. Between the bon da the market was very firm, with a fair business at the street corners. In the afternoon, the market took a surge upward for nearly all of the leading stocks, and there was as much eagerness shown among buyers as has been witnessed at any time since the market com menced its upward movement. The dealings in Toledo, Erie, N. Y. Central, Harlem, and Michigan Central were especially active, and the advances important. The most surprising bound was in Erie, which sold as high as 43, an advance of 31 P cent from the first prices of the morning. At the adjournment, the market was still a rising one, and after the Board sales of Erie were made at 451, and of New-York Central at 91]. Later in the day prices were off a little, but the concessions were confined to a few stocks. The day's business shows conclusively that the conrol of the market, as we have for some time conended, is out of the hands of the brokers, and so long as the disposition to buy is stimulated by facts favorable to the profitable development of railway business, the combined energies of the bear forces in the street can make no head against the current. The closing prices were as follows: U. S. 5e, 1874, 1021 a 1021 Tennessee State 6s, 902 w 904; Virginia 6s, 914 w 92; Missouri 6s, 79 a 79; Cumberland preferred, 14 a 15; Pacific Mail, 814 @82; New-York Central, 914 @914; Erie Railroad, 43 # 134; Hudson River Railroad, 651 a66; Harlem Railroad, 211 222; Harlem Railroad

The range for sterling is from 1094 to 1091 for bankers' tills, with sales at 109%, and rather a dull market. France are quoted at 5.15 to 5.15%.

The Chicago, Burlington & Quincy is unofficially reported to show an increase of from \$12,000 to \$15,000 in the third week. The recent decline in grain has probably retarded the deliveries in Chicago, and the lack of shipping facilities has, no doubt, had an effect also in diminishing the receipts. Vessels have been arriving in considerable numbers recently, and as freights are somewhat lower again, we may expect to see the movement of grain more active. Within a day or two the market for Breadstuffs has been considerably firmer and better in New-York and the export demand more active. The harvest accounts from Great Britain appear to be rather more glowing than the facts warrant, and the probability is that the tendency is almost as much to exaggeration in the predictions of abundance as before of deficiency. The large ship-ments of wheat and flour, reported from day to day in our list of freights, seem to be made with a singular dieregard of the flattering harvest accounts, and the inference is that grain operators are pretty well posted as to the market for cereals on the other side of the Atlantic. The business of the Clearing-House to-day was

\$22,870,642. We understand as a matter of convenience to the City Chamberlain, who in President of the Artisans' Bank, that that institution will hereafter make its exchanges at the Clearing-House through the Park Bank, having discontinued their temporary arrangement with the American Exchange. Money is freely supplied at rates recently given, and the course of the market is toward further ease, without any quotable reduction in price. The present phase of the market is rather the precursor of relaxation than of actual change in terms of negotiation. Lenders, having established higher figures, heeitate to accept lower rates sgain, and money finds larger employment on call pending the difference in the views of borrowers and lenders in regard to paper. The banks, having contracted to limits which meet conservative views, are again in a condition to meet their offerings liberally, and the money flurry—much resembling a "teapot tempest"—teems to be subsiding as rapidly as it came up. The "chunks of wisdom" drawn out in regard to the New-York bank loans have been wasted, and people begin to see that expansion to be dangerous must not be confined to the commercial centers of a great country.

The following circular has been issued by the dry goods jobbing house whose difficulties were mentioned

The Philadelphia Evening Bulletin of yesterday says of the money market in that city:

Money centinues abundant on the street at \$254 \$\pi\$ cent with un toutied names or good collaterals, but second-class paper or acceptances having over intertylays to run are difficult to negociate at \$30 cent and upward. The agricultural products of the West, South, and Southwest are conding in large quantities to the seaboard, creating a profitable carrying business for our railroad and treighting vessels. Ships have improved in value from \$25 \to 30 \$\pi\$ cent since the commencement of the present year, and there is a healthy business doing in most departments of trade.

The New-Orleans Picayune under date of Thursday

The New-Orleans Picayune under date of Thursday p. m., Sept. 20, reports of Exchange:

Yesterday's business in cotton was followed up by extended operations to day, and as a consequence the financial movement was correspondingly large. The exchange market felt the influence of this suddenly enlarged basis, and succumbed again to the increased offerings. Prime stelling was done at 1994 for the same bills which brought 1994 yesterday, and some at 1994 for the same bills which brought 1994 yesterday, and considerable portion of the cotton purchases to day were for England and hence the sterling market is better supplied. We heard of two sales, with bill of lading attached, at 1994-2199. In France, the dealings were moderate, and we now quote from \$6.1920-520. Time bills on the North were more treety offered, and we notice sales at 1/4 19, and in the instance at 14. Drawers of Al paper, discountable in New York, sak 1/311 discount, but they make little progress in selling. Sight was dealt in at 1 for bank checks, though the counter rate remains at 1/31. Three and five days bankers' sold at 5-15-35, and private sight closed at 1/31. The market all round was well supplied, and rates show a tendency to further slackening, though bear k checks could not be bought lower than 1 premium.
